The PRAYER FOR TODAY FROM The Upper Room

Jesus saith unto the man, Stretch forth thine hand And he stretched it out: and his hand was restored whole as the other. (Mark 3 5)

PRAYER O Father, we thank Thee that whenever we do to church, "Thou, O Lord art there Thy chosen flock to greet " Help us to worship Thee in spirit and in truth Help us to be faithful to Thee through Christ Amen

OUR "AGING" MAYOR

ACCORDING to Dan Terrill of the Lincoln Journal, Nebraska City's Mayor Bill Dawson, who has contributed a lot of his town's affairs, is "aging rapidly" as head of the municipality.

I saw Bill yesterday but could see no signs of age. It is true that he is a busy executive and as such is bound to neglect personal business which by itself requires a lot of thought and attention But if he is aging I suspect he is enjoying the process.

Bill always has been a busy man. He is a past Jaycee president and state vice president. He headed the Community Chest and is active in the Christian church. He is an Air Force veteran and the record shows he did a good job there, too.

It takes a lot of work to be mayor of Nebraska City. I have been acquainted with them for more than 50 years. Some have been forgotten by the community, a few others left their impress

This youthful one we have now is likely to be right up there at the top with respect to energy, thoughtful attention to duty and a love for the community he adopted in 1955. Let's not forget that aspect—he came here because he believed in the rest of us.

The accident of birth frequently stuns some of us into the belief that things will run by themselves if we'll just avoid controversy and drift along.

IT WILL ATTRACT HOMES

MORE than one citizen showed relief from debates on the school issue with as much enthusiasm as he did when he learned that a count of mail and disabled voters' ballots had carried the high school building bond issue after the seventh "try "

I think the average citizen who worked so diligently for modern school facilities and an unobstructed site for a building will agree, Five years of argument, some of it bitter indeed, was entirely too much.

As this newspaper said the other day, it will be months before actual construction can begin. It may be more than a year before we can see the results of all the election campaigning and what it involved

One thing is sure, Nebraska City now may hold up her head My prediction is that we will profit materially by what was accomplished In due course more people will be attracted to a town which deserves attention from home - owners, and that homes will be built adjacent to the new facility just as has occurred in other Nebraska communities where school buildings were constructed away from congestion which hampered us here

THEY DO NOT LIVE FOREVER

THE veterans of World War I are so few these days compared to the larger number who served in World War II and the Korean "police action" (as Mr Truman called that bloody conflict) that they are being edged out of offices in Legion posts, says Dave West of the Sidney Argus-Herald

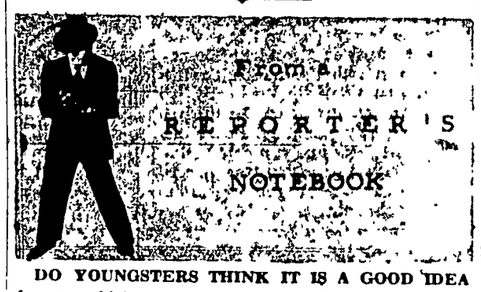

Mr West is talking about the Sidney Legion Post which sponsors the annual rodeo, one of the country s best, owns the building in which the veterans take pride with its public dining room, and the dwindling number of the men who went off to war in 1917 as compared with those who fought later

The same situation, of course, exists elsewhere The American Legion's preamble is a most liberal invitation to any veteran with a clean discharge to join. The membership has increased in consequence It is quite likely that the governance of most posts is in the hands of younger men

It must not be forgotten that World War I began 45 years ago and, therefore, the average veteran of that conflict is bound to be 65 years or older It is reminded of the days when the GAR's membership began to fade away

Men do not live forever, although they are doing better than when the Civil War vets were most numerous, but it won't be too long alas, until the American Legion will be 100 per cent of wars beyond that one which gave the organization birth that day in Paris and saw it blossom rapidly in the homeland when the boys got home

DO YOUNGSTERS THINK IT IS A GOOD IDEA for an athlete to train on cigarets?

That's what the TV says, in some of its tobacco company testimonials

Don't believe it, boys Training on cigarets is not the road to success on the football field or the basketball court.

The pros you see training on cigarets aren't college athletes They are hired hands who get part of their pay endorsing smokes.

THE people of the Nebraska City area on both sides of the Missouri river should send congratulations to the people of Blair, Neb , where the bridge has finally become free of tolls.

The Blair bridge, like the one in Nebraska City, was a Woods Brothers promotion As long as these bridges remained in private hands, they never could have become free of tolls

NEBRASKA City took a forward step in the thirties after the County of Otoe turned down a request that the bridge be purchased by the county The then Mayor P E Ziegenbein carried the ball, however, and within a short time the private company sold out to the city, which issued revenue bonds

There were some stormy periods during city ownership, but nothing serious In 1955 the toll house was locked for the last time and the states of Nebraska and Iowa took over the ownership of the span

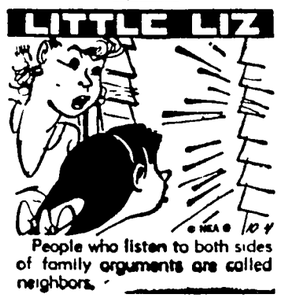

Nebraska City and its Iowa friends discovered that a free bridge .mean' quite a lot

This Nebraska City project panned out 100 per cent despite a war which cut tolls to a trickle

CALLS came to The News-Press from far and wide last Friday morning asking about the school bond election One caller was a Talmage woman who said she was pleased at the result

"It's about like Talmage," she said

Talmage went through a period of uncertainty after a school consolidation was approved, but success came in the end

Works bill ok aids final rush

WASHINGTON (UPI)—The Senate took another giant stride toward congressional adjournment today by passing a $5 2 billion public works money bill

The measure carrying funds for President Kennedy's emergency public works program to combat unemployment was approved by a roll call vote of 63-8 The bill now goes to a House-Senate committee for final revision

The House called up the Senate-passed postal rate and federal pay hike bill—another hurdle that must be cleared before adjournment.

Other congressional news:

Safety: A House subcommittee heard sworn testimony from Margaret Mary Donofry of Jackson Heights N Y who said that as a former stewardess she once flew an airliner loaded with passengers from Atlanta Ga to Charlotte N C Other non pilot personnel related that they also saw stewardesses at the controls of commercial flights The subcommittee is investigating alleged safety violations in the air

Farm The House Agriculture Committee voted 22 10 to get rid of a "blooper" in the farm bill recently passed by Congress and signed by the President Through oversight the new law would have imposed new crop planting restrictions on thousands of small wheat growers or require the government to penalize them The hastily passed House measure would correct this situation

Sold stolen jack to father-in-law

Ernest W Stout, released to Lancaster county authorities after an estimated $1 600 worth of loot was found in Nebraska City, even sold a stolen article to his father-in-law

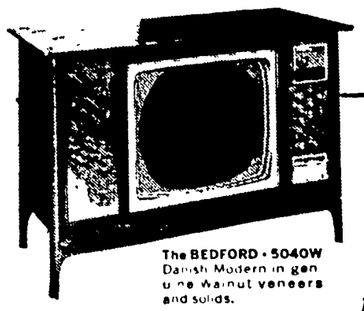

Bert Kesselring, Beattie, Kansas who came to Nebraska City Sunday to return his daughter to Kansas, said Stout sold him an automobile jack Acting Police Chief Don Martin said it was stolen

The Stout trailer has been taken out of Nebraska City, Martin said Stout will face charges in Lancaster county in connection with a theft at Walton.
