NEHAWKA
Mrs Willis Knake

Mr and Mrs Kent Balfour visited her son-in-law and daughter, Mr and Mrs Orval Albers who became members of the Rockbrook United Methodist church, Omaha.

Mr and Mrs Roger Balfour, Mr and Mrs Kent Balfour, Mr and Mrs Orval Albers of Omaha recently went to the home of Mr and Mrs Neil Balfour in Lincoln to celebrate the birthday of Neil.

Esther Barkhurst is a patient in St. Elizabeth's hospital, Lincoln. She had surgery Monday.

Sue Cunningham from Bradwater was a house guest of Joyce Barkhurst for a couple of days.

Nancy Ross, Lori Schlichtemeier, and Debbie Schomaker spent a week at 4-H camp at Halsey.

Mr and Mrs W. H. Kruger, and Eric of Naperville, Ill., spent several days at the home of Mr and Mrs Arthur Wolph. Jill Kruger has returned from the United Nations Pilgrimmage sponsored by the I.O.O.F., and Rebekah Lodges of York. She returned to Naperville, Ill., to be with her parents and brothers.

The American Legion Auxiliary held the July meeting in the auditorium.

Bill Mayfield is spending two weeks in the Reserves at Ft. Knox, Kentucky.

Monday evening Mrs Cheryl Mayfield celebrated her birthday at the Elks club in Nebraska City. Her guests were Mr and Mrs Oren Pollard, Mr and Mrs Malcolm Pollard and Lyle, Mr and Mrs Boyd Mayfield and Bonnie, Mr and Mrs Mike Minderman and David, Mr and Mrs Bill Ost and Elizabeth Tyson of Nebraska City

Correction — The article on Tammy Heesch was 18 girls from Nebraska attended the F.H A convention in Kansas City instead of 18 girls from Nehawka.

Mr and Mrs Howard Bane of Plano, Iowa, visited several days with her daughter and family, the Howard Heesches.

Mrs Ann Schomaker of Lincoln was a recent guest of Mr and Mrs Howard Heesch.

Mrs I. A. Warlick, Mrs Myrana Warlick, Mrs Willis Knake and boys visited I. A. Warlick at the Plattsmouth Manor

Bill Prickrell and family, Mr and Mrs Willis Knake and sons went picnicking and swimming at Louisville.

Debbie Spear of Omaha spent a few days with her grandmother, Pearl Kime Debbie is employed at the telephone office in Omaha.

Carl Haith of Nebraska City, and Marguriette Haith went after the children of Lawrence Haith in Columbia, Mo. The children are with their grandmother, Mrs Haith, and Mrs Pratt from Union. Lawrence is in Columbia in the hospital and will be transferred soon as doctors give permission.

Margueritte Haith attended the funeral of Clifford Garrens, the father of her daughter-in-law.

Mr and Mrs Bill Johnson, Mr and Mrs Gary Jones, and family, Mr and Mrs Dugan Gregg and family, and Mr and Mrs Roland Hogue went camping over a weekend at Blue Stem by Hickman.

A birthday party for Brenda Jones was held at the home of her parents, Mr and Mrs Arthur Jones, on July 13. Guests were Janice, Cheryl, Lennie, and Kathy Thorne, Candace O'Connor, and Janet Meisinger.

The Dickman and Turre reunion will be held the third Sunday in September at the Cecil Garrett home, instead of the first Sunday in August, at Steinhart park, Nebraska City. The committee is Mrs Cecil Garrett, Leonard Garrett, and Mrs David Stedman.

Orbin Garrett of Broken Bow and his daughters, Mrs Wandra Deord and Diana and Juanita Garrett spent a few days with Mr and Mrs Cecil Garrett. They are now visiting other relatives.

Mr and Mrs James Cole and Sally of Shelton, Mr and Mrs James Cole Jr., and daughter of Gibbon were weekend callers of Mr and Mrs John Buchholz, and Johnny.

Mark and Phillip Rexington of Hickman visited their grandparents, Mr and Mrs John Buchholz, over the weekend. They are the children of Arlon Rexington.

Kevin Knake cut his foot on a piece of tin and had stitches taken in his toe Wednesday night.

Mr and Mrs John Buchholz and family were recent dinner guests of Mr and Mrs Marvin Axt's and family of Plattsmouth.

4-H Club — The Happy Homemakers 4-H club met at the Saferik home for the July meeting. The demonstration was on different types of seams by Barb Haith. Lunch was served by Mrs Safarik and daughters Nancy Ross, reporter.

Helen Heesch and Mrs Howard Bane of Plano, Iowa, were recent callers of the Elmer Stolls.

Mrs Stoll's niece and family, the Ronald Bergins of Harlan, Iowa, were dinner guests of the Elmer Stolls.

Mrs Marvene Schomaker and Hazel Schomaker attended the funeral service of Jeanette Bretthorst of Nebraska City.

Mrs Norman (Shirley) Ackley was dismissed from St. Mary's hospital and is now home.

Mr and Mrs Kenneth Wolbrandt and children spent a week in Kansas visiting his parents, Mr and Mrs Clarence Wolbrandt, and Cecil Hanover. Callers included Kenneth's sister, Mrs Sam Jackson, and Mr Jackson and daughter, of Germany, and Mr and Mrs Martin Heuer of Florida. Others they visited were Mr and Mrs Charles Trump and Mrs Lilly Vasey of Wymore. Mrs Wolbrandt.s parents, Mr and Mrs Frank Mahlman of Hollenberg, Kans. They visited and Nyla returned home with her parents after spending a month with her grandparents.

Mr and Mrs Clarence Wolbrandt and Cecil and Mr and Mrs Sam Jackson, spent a few days with Mr and Mrs Kenneth Wolbrandt

Nancy Ross attended a State 4-H camp at Halsey for a week. She is the daughter of Mr and Mrs Elmer Ross.

Nancy Schere of North Platte was a house guest of Mr and Mrs Dean Nutzman and family for a week.

Mrs Jerry Gude and family of California, visited relatives, Mr and Mrs Bill Ross and family, Mr and Mrs G A. Gude of Nebraska City and Mr and Mrs Ralph Brandt Jerry spent a week and came to get his family who returned home with him

The Buck Ends Here
By IVAN D.E BEAUMONT

It's vacation time!

We're on our way to Los Angeles to visit my folks, brothers and sister and all the nieces, nephews, cousins, aunts, uncles, in-laws and out-laws.

And I imagine we will be eating barbecued meats from the word "go," roasts, fried foods (and naturally, mom's chicken and homemade noodles), consuming most beverages, soft (mebbe a little hard, too) and walking our legs off taking the family on sightseeing trips

+ + +

We know we're going to have a good trip and with six of us in a car it will be anything but normal I've estimated the younger members of the family will fight only once every five minutes

Know what I mean?

+ + +

It goes something like this

"Ouch, now stop that."

"Splat!"

"That hurt.. boo-hoo. .sob. .sob "

"Mother, make him (or her) stop it "

The king speaks· "What's going on there?"

"He (or she) hit me "

The king· "Now you stop hitting him (or her) "

Peace, brother

Moments later

"Splat!"

"Oh .sob .sob .sob "

"Ker-pow! Ker-pow! Ker-pow! Ker-pow!" (Mother Bear is not so patient)

+ + +

We are traveling via Dale Chaney's route Dale and his family moved back to Nebraska City from a town north of Los Angeles. He's traveled it several times with his family the last time with a truck pulling a car with a motorcycle tied on (somewhere)

It's been five years since we've visited in Los Angeles, so we are looking forward to seeing the changes made on the coast

+ + +

Louie Genoa, the North 40 forester, handed me this note·

"Clean up your Elm wood now!

"Dutch Elm disease can wipe out nearly all of our Elms in just 10 short years unless you help The disease is spread by tiny beetles which breed in any dead or dying Elm wood. This includes broken branches in trees, stubs from improper pruning, Elm fireplace wood

"In fact any Elm wood larger than two inches m diameter in a dead, dying or unhealthy condition is BEETLE WOOD as long as the bark is still attached Destroying Elm wood is the most effective way to stop the beetle from spreading the disease

"WHAT YOU MUST DO·

"Thoroughly scout your property and collect all loose pieces of Elm wood. Check especially piles of firewood and for Elm logs with bark still on them

"Remove or have removed broken branches and stubs from Elm trees. All Elm wood must be taken to designated dump sites. Check with local city departments or have the material promptly removed by a commercial hauler "

It's never too late to fight Dutch Elm disease Nebraska City has already lost a staggering number of trees

+ + +

What a strange world today

This came in the mail the other day·

A group of physicians in New York have set up a center to reduce the cost of abortions and "the rate of complications" in abortion procedures.

Fees range from $135 to $150 on an out-patient basis for up to 11 week pregnancies and $250 to $400 for 12 to 24 week pregnancies.

Psychiatric counseling is also provided

+ + +

To Monique (my, such a pretty name) Bentzinger

You say you are taking photography in 4-H and want some tips on how to photograph the Apollo 15 moonflight on television?

Well, little gal, you came to The Buck and he's got the answers·

First things first —

The TV must be adjusted so that its contrast is slightly less than normal; the brightness control must be set so that both shadow and highlight areas of the TV image show detail, with the color at a normal level. Get close enough with your camera so that the TV image fills the viewfinder Douse all the extra room lights (Dad's probably hollering about the lights, anyway), and any reflections on the screen Don't use a flash because your photograph would show a blank TV screen.

+ + +

To determine the best exposure for adjustable cameras hold a light meter close to the screen so that it reads only the TV image (Your ASA 25, 65 and 80 must be set on the light meter) Position the meter to read equal parts of light and dark areas of the TV picture

+ + +

A typical exposure for color TV photography, using Kodak high speed Ektachrome film (Daylight) is F2 8 at 1-10th or 1-15th of a second. Your type of film is pretty close the same in photographic light measurements, but I'd suggest the higher speed Ektachrome (If you have both types, use them and make your selection from the negatives BEFORE having color prints made)

Whatever you do, you've got to hold the camera steady At that pokey a shutter speed, you won't be able to hold the camera still in your hands If you don't have a tripod, put the camera on the dining room table and send Dad out to do the chores

+ + +

With a nonadjustable camera, such as the Kodak Instamatic X-15 or X-25 camera, you can take black and white photos with high speed film such as Kodak Tri-X Pan by inserting a used flash cube to lower the shutter speed. You've got to use a little more of the brightness knob, too

A couple of final tips At such slow shutter speeds, take pictures of the TV subject when it is moving "toward" you, not across the screen, left to right

+ + +

Lots of luck I'll be looking in the photo displays in the 4-H building at county fair time for a winner

Mrs Mike Miller of Nebraska City is spending a few days with Mr and Mrs Norman Ackley and helping Mrs Ackley while she is recuperating from a recent illness.

Mr and Mrs Roger Balour and children, Mr and Mrs Neil Balfour of Lincoln, Mr and Mrs Orval Alber of Omaha and Amelia Balfour were recent dinner guests of Mr and Mrs Kent Balfour in celebration of Kent Balfour's birthday

Mr and Mrs Jim Gilley and James of Hastings were recent guests of Mr and Mrs Kent Balfour.

Keith and Kay Balfour stayed a week with Mr and Mrs Orval Alber Mrs Alber, an aunt, took them home.

Mrs Minnie Wessel of Nebraska City and her sister-in-law, Emma Friese, of California, visited Amelia Balfour. She was a student of Mrs Balfour in 1905 and 1906.

Ramona and Ron Harshman of Afton, Iowa, are visiting their grandparents, Mr and Mrs Ellis Lacy and Mr and Mrs Wilber Harshman for a week

Ellis Lacy and his brother, Marvin have returned from Canon City, Colorado They attended the funeral service for a brother, Merle

Schicklgruber

Adolf Hitler was called Schicklgruber by political opponents after the surname of his paternal grandmother, according to Encyclopaedia Britannica

Annexation is upheld by court

LINCOLN, Neb (AP) — The State Supreme Court Friday upheld a 1967 Scottsbluff city ordinance which annexed to the city a 43-acre tract owned by Jack and Mayme Webber

The opinion affirmed the Scotts Bluff County District Court's judgment in dismissing the Webber petition.

The Webbers contended that the annexed tract was not urban or suburban in character, and that the annexationordinance was not validly enacted because of procedural and ther errors.

These and other allegations were rejected by the Supreme Court

In another case, the second degree murder confiction of Rudolph Klatt, charged with the 1967 fatal shooting of a half brother near Anselmo, was affirmed

Klatt was tried in custer County District Court in 1970 after having under gone more than two years of treatment in the Lincoln State Mental Hospital

"There was no question but that the defendant shot and killed his half-brother," the high court opinion said "The only real issues involve his legal responsbility for the act and his mental competence to stand trial " On both points, the lower court's affirmative findings were upheld

Child killed in sweeper accident

OMAHA (AP) — Deputy County Atty Jerome Merwald said Thursday the death of a ten-year-old girl by a city street sweeper on June 30 was "strictly accidental "

Merwald said no charges will be filed against an 11 year-old girl who was questioned in connection with the death of Brenda Sims

Police quoted some witnesses earlier as saying Brenda may have been pushed.

Apollo to peek at moon's back

By PAUL RECER
AP Aerospace Writer

SPACE CENTER, Houston (AP) — A group of science instruments tucked into one bay of the Apollo 15 spacecraft will produce the first study ever of the composition of the moon's back side, a vast unknown area never seen from earth

The instruments will measure the composition of about 20 percent of the moon's surface during Apollo 15's six-day stay in lunar orbit The 12-day mission is scheduled to be launched at Cape Kennedy on Monday

Astronaut Alfred M Worden will operate the complex instruments For three of the six days Worden will be alone in the spacecraft while his crewmates, David R Scott and James B Irwin, land and explore the moon's surface

The instruments are an X-ray spectrometer, an alpha particle measuring device, a gamma-ray spectrometer and a mass spectrometer

By measuring the X-rays and gamma rays coming from the moon, scientists are able to determine the presence of elements such as iron, oxygen, magnesium, potassium, aluminum, uranium, thorium and silicon From this data the composition of the moon's surface can be calculated

Orbital data gathered over the Apollo 15 landing site will be compared with the actual laboratory composition measurements of lunar material brought home by the astronauts This will establish "ground truth," or a bench mark against which to calculate the accuracy of the orbital data

The alpha particle and mass spectrometer devices will measure the diffusion of gases from the moon's surface and in its atmosphere Some of these gases are expected to be from the decay or radioactive materials

Dr Isadore Adler, a space agency scientist, said the alpha particle device will measure the diffusion of radon and thoron, gasses produced in the decay df radium and thorium. These two elements, if present in high concentrations, can cause subsurface melting and volcanoes

The alpha particle device, he said, may also help locate lunar "hot spots", or areas where volcanic activity is present

Data from these experiments may be vital, scientists say, if definitive answers are ever made to questions about the moon's origin

Theories of the moon's beginning and history depend largely upon the proven lunar composition Landings on the lunar surface, however, will permit sampling of only a small fraction of the total moon And all of the sampling will be on the moon's front side

Guard, guests die in motel blaze

NEW ORLEANS (AP)—Seven persons including a guard who tried to rescue guests were killed today when fire broke out in a 17-story motel Some guests swung down from balcony to balcony to escape

Four persons were reported injured, two critically

The hotel said six guests and a security guard died in the fire

Dave Fontaine, director of the city's fire prevention bureau, said the fire started of unknown cause in a room vacated by two men who checked out in a huff at 2 a m after being denied permission to take two women upstairs with them

Whence Its Nickname

Pennsylvania is nicknamed the Keystone State because the early inhabitants proudly proclaimed that their state held together the great arch of the United States extending from Georgia to Maine
