President Ford to visit in Sioux City

SIOUX CITY, Iowa (AP)—Details are being worked out for a brief appearance by President Gerald Ford here Thursday.

The White House announced Friday that the President will hold an Oct 31 airport rally here on behalf of Rep Wiley Mayne, R-Iowa

The exact time of the rally has not been announced, but Mayne said Ford's plane is scheduled to land about noon

The White House said the President added the Sioux City stop to a planned three-day campaign swing at the request of supporters of Mayne, who is in a tough race for re-election against Spirit Lake Democrat Berkley Bedell

The President will stop in Sioux City en route from Washington, D C , to Los Angeles, Calif

"I am of course delighted that President Ford is taking time from his very busy schedule to visit the 6th congressional District," said Mayne "It is always a great honor to have a President of the United States come to Sioux City and I am sure he will receive northwest Iowa's traditional hospitality "

Quarry accident

AUBURN — George Micek and Charles Block, workers at Hopper Quarries southwest of Auburn, were injured in an accident with a burner at the asphalt plant last Wednesday when an explosion threw heated material about the area They were treated for burns at the Nemaha county hospital and released

The longest voyage recorded for a message in a bottle was one of 25,000 miles from the Pacific to the shore of the island of Sylt in the North Sea in 1968. The bottle was dropped in 1947.

DEPRESSION ART "FOUND"

Public Offered 1937 U.S. Gov't Art Prints

Imagine, if you can, finding several thousand sets of antique prints of the world's greatest paintings that were lost for more than 35 years! It actually happened and this is the true story of the discovery of that lost treasure.

Eleanor Roosevelt

Back in 1937, immediately following the depression years, Mrs Eleanor Roosevelt and a select group of a dozen nationally prominent people formed a voluntary national committee for art appreciation to create an art program that would give the public a well-needed moral lift It was the committee's decision to select the world's most famous paintings from the 16th, 17th, 18th, 19th, and 20th centuries - the best paintings of Matisse, Van Gogh, Renoir, Picasso, Gauguin, Titian, etc , and to reproduce them in full color as perfectly as humanly possible and make them available to the public at a price within the reach of nearly everyone

Abandoned In 1937

For some unknown reason, after a quantity of these beautiful reproductions were made, the entire project was abandoned and this collection of perfect reproductions was stored in a Brooklyn warehouse, where they remained undisturbed since 1937

Through a series of rare coincidences, the lost collection was "rediscovered" and leading lithographers and art critics agreed that the subject matter and quality of detail and color reproduction was incredibly accurate. Over $500,000.00 was spent to make finely engraved glass printing plates It would be impossible to reproduce prints such as these under existing methods, and for that reason these prints are literally collector's items. Once they have been sold, there will be no more available. A truly excellent art "investment" that makes a fabulous gift.

Available to Public

These authentic original 1937 prints have been appraised by the American Appraisers' Assoc. at $7.00 each print Now, these full color 11"x14" prints are finally available to the public at $19.95 for a collection of 18 prints. Send cash, check or money order to: U.S. Surplus, Dept. F-74 P.O. Box 605 Tarzana, Calif. 91356. Fully GUARANTEED Certificate of authenticity given with each set. Mastercharge and BankAmericard OK (give card number).

The Buck Ends Here

Law enforcement officers know that it takes help from citizens to get a job done and another example of that happened last week in Nebraska City

Cynthia, daughter of Mr and Mrs Walt Anderson, saw a girl walking along U.S 75 and when she told her parents about it, her father called the sheriff's office The girl was returned to her family a short time later

The Andersons have a radio monitor in their home and had heard the emergency call for volunteers to assist officers in the search for the missing girl

Congratulations, Cynthia, for being an alert young lady and helping some worried parents

We sit on the same row as the Norm Stehlik family at Hayward park for the football games That put two pipe smokers together and it was no surprise that Norm and me should happen to light our pipes at the same time

Millie was sitting between us and didn't say much I did feel sorry for her, though, because Norm's tobacco doesn't have the same aroma as my Cherry Blend He must have noticed the same thing about my pipe smoke because he stayed fired up

I didn't want to say anything at the time, but Norm surely must have had a mixture of discarded lettuce leaves taken from his vegetable rack, dried prunes, cookie crumbs and paper shreddings from a copy of Family Circle

True, the wives didn't say much but they did look at us with strange expressions once in a while

Morton House Kitchens will put on two shifts for new work for the plant in Nebraska City

The company has an order to make several million cans for Tabby cat food for the plant at Golden Meadows, Louisiana

The Nebraska City plant is able to get tin plate for the job — something that other plants are having more difficulty with — and can produce the product for a lower cost

Morton House can division crews can manufacture 250,000 cans a day with two shifts running (about 25 people)

The job is quite a compliment for the Nebraska City plant and the work comes at a time when a great deal of interest and effort have been exerted to keep the plant going

The Way it was .in the 1950s

Junior and Senior High students laughed at the styles, but got with it last week when the schools had 1950s parties

Actually, it was the moms and dads who had the most fun

While the girls concentrated on saddle shoes, bobby socks, pants with the cuffs rolled up or long skirts with can-cans, the boys really greased it up

We happened to notice that Athletic Director Jim Brockhaus was wearing jeans with the cuffs rolled up a couple of notches, white socks and penny loafers at a school party

And we just happened to be around when three boys were getting ready for the party

"I'm not going to put any of that stuff on my hair," Bill Peterson said

"Yowie! Lookit me and this greasy stuff in my hair," (Ernie) Lechner said

"Gimme some of that stuff Let's see how it looks . ugh . you mean we're supposed to rub this into our hair?" No 1 son asked

+++++

"Well, now listen, fellas," the king said "If you're going to rock baby you've got to put a little dab into your hand, rub your hands together and put it in your hair with a boogie woogie here and a boogie woogie there "

"If I have to do that I'm not going to go," Bill said

"Oh yes you are," Ernie said, "we're all in this thing together WOW! Let me look in the mirror again."

"Hey, dad," the growing boy with the clumsy feet said, "did you really grease up with stuff like this when you and mom went places?"

"You can bet your best pair of boots, buster," the master said, "and what's more you've got to whip a duck tail on you neck, pull up your collar on the back and put on an Elvis style wiggle and walk "

+++++

No 3 daughter had some doubts about wearing a dress after all didn't they wear jeans in those days also?

"They sure did, honey," I replied, "but let me show you how your mother looked " (I brought out the Fairbury yearbook and thumbed through the pages)

"Golly, mom," the youngest said, "if you wore that kind of a dress to school, what did you wear when you and dad went out?"

"Well, one time I ."

"Let me interrupt this little chit chat for a moment Queenie and explain to the child you see young lady, the long skirts were popular in those years and despite the pants style of today's crazy world, girls did wear dresses in the 1950s As a matter of fact when I first met your mother at the skating rink she was wearing a red dress that stretched to the top of her shoe skates "

"Really?"

"Yup, chil' really "

+++++

Well, to cut this story off we must report that the kids had a grand time "Ernie" had doubts that his hair would stay down and put a little extra hair dressing on it I added another little touch stocking caps

The only conclusion that I can come to about having a 1950s party is that there is a benefactor — City Utilities I swan if your house was like our's, then your kids grabbed the bottles of shampoo and headed for the showers

The motorcycle enduro

Brad Yost joined us as we drove our car down several roads to watch some of the motorcyclists in the enduro held here last Sunday.

The "mud hole" course west of the city wells was a special attraction We saw two cyclists axle deep and splattered. They didn't seem to mind it and we watched as what appeared to be a father-son team help each other. They took it as a matter of fact situation and worked their way out of it.

Meanwhile, we took a look at the Kawasaki 90 and the recently purchased Honda SL 175 (Kyle Reinhard's old bike) and decided that we preferred smoother routes

Brad said phooey to that and was anxious to compete We settled for a snack at the Port cafe and talked with several of the cyclists They filled us in on the hazards of the race route.

+++++

Thanks to the Otoe County Wildlife club and Mead Lumber company we joined about 50 other sportsmen in the blue rock shoot — for fun It had to be for fun because our aim was pretty bad

Orville Carlisle suggested using tracers. That hit a familiar ring We used tracers on 20 mm guns overseas and learned on the first round how to correct our aim

Ralph Reed handed me a handsome shotgun and offered it for the shoot "You don't even have to aim it," he said, "it'll track down the rock for you." (I've heard a lot of stories, but nothing that could match a trap shoot remark like that)

I thought I was doing fairly good for a beginner until I saw a little fella who couldn't have weighed more than 60 pounds, struggle with the weight of his gun and splatter target after target I was ready to go home right then, but stuck it out.

There was only one thing that could have improved my score — Larry Mumm didn't have to say "LIVE" quite so often.

New York banks hit by bombs

NEW YORK (AP) — Four explosions, some of them outside bank offices, rocked midtown Manhattan early today

There were no immediate reports of injuries

Police Lt Edward Cash said the first explosion, at the Banco de Ponce at 49th Street and Rockefeller Plaza, was caused by a bomb

"It was a bomb — definitely, it was a bomb," Cash said

Police said the second explosion occurred outside the Chemical Bank branch office in the new Exxon building at 49th Street and Avenue of the Americas about 3 a m , or about five minutes later

A third explosion occurred outside the Union Carbide Building at 48th Street and Park Avenue, and the fourth explosion at Lever House at 53rd Street and Park Avenue, police said.

The four sites are within four blocks of each other

Police said there were no immediate reports of injuries, although security workers were on duty in all the buildings

A woman, who did not give her name, told The Associated Press in a phone call about 3 40 a m that the explosions were the work of a Puerto Rican nationalist organization

"We have just bombed imperialist banks," she said "Free all Puerto Rican prisoners "

These words prompted me to join the Marine Corp at 18. A couple of years and three gunshot wounds later I was home and at odds with the concept of that war. However, I'm glad I served my country with honor.

Today's war is Inflation. . . . . .Monopolies — Big Business — and Tax Writeoffs, the enemy.

Menominee Indians once controlled some 9,500,000 acres of Wisconsin, National Geographic says. Their holdings were reduced to 275,000 acres in a treaty between the tribe and the United States in 1854. Today, the Menominees' reservation covers about 230,000 acres.
