The Buck Ends Here

By Ivan D.E. Beaumont

It must be near Arbor Day the Redbuds are in full bloom, the blossoms are out on the fruit trees and the weeds are making their appearance in my lawn

+++++

We transplanted zoysia grass from a couple other sections of the lawn We got the original plugs from Dick Niemann a number of years ago The beds have grown so we thought we'd give it a try at transplanting

Jim Cass, a salesman at Whitehead - Rhoden said that's the same type of grass planted around the Omaha World - Herald building Jim says he believes the World - Herald was the first to plant that type of grass in Omaha

Hopefully, the grass will do what they say .choke out weeds

There's a number of us who will find that out. We put in 2,000 plugs Our neighbor Don Farson is going to try it with about 1,400 plugs

+++++

The biggest election disappointment we read was when Lewis Martin, Sr., withdrew as a candidate for the Nebraska City Airport Authority

"Louie" as all his friends know him, has been an outspoken person on a number of local issues and he has never made any bones about it — he likes it, or he doesn't

We've never known him to say "don't quote me " It's a matter of fact, he's not only offered comments on some of Nebraska City's tastiest tissues, he will even write them up

When Louie withdrew as a candidate, he disappointed many of his friends. We don't know whether he would have been elected, but we're sure of one thing — he'd sure given 'em a whale of a pre-election campaign

The Airport Authority is one of those "public service" jobs like the school, park and utility boards Nebraska City has been fortunate to have so many people willing to take those jobs and often some of the guff that goes with them

+++++

Ole' Jerry is smiling

Jerry and Bev Hall are putting in a lot of hours at their Sears Catalog store on Central Avenue getting ready for the move to their new location at Seventh Street and Central Avenue. the former Montgomery Ward store

The main floor will be Sears and the lower level will be a mall design with a number of smaller shops and stores

The Halls are pretty excited about the move

Jerry is still only a few steps away from a donut shop, namely Zipp Bakery The additional floor space is needed. the couple says

A grand opening will be held after things get settled at the new store

+++++

Jimmy's goin' to wheel it —

Jimmy Rowe, the energetic son of Mr and Mrs Harold Rowe, is going to get some wheels under him Jimmy is going to have his own motorized vehicle for getting around

The youngster has lived with a bone disease that slows his movement, but not his active mind. We remember well the day his dad had the grand opening of Rowe Motors at 1518 Central Avenue Jimmy was the on-the-spot entertainer of the daylong KNCY broadcast

Jimmy will have a special permit to operate his vehicle, but meanwhile we understand he's been eyeing his dad's four-wheel drive pickup trucks with the side pipes, flame painting, carpeting and all that jazz

+++++

We have a little experience in that line No 1 son bought Jim floor has a deep pile shag carpeting of pastel colors The the late Mark Sheldon of Percival

Jim put in the heavy mechanical work, but believe it or not kids .he never split the manifold or put side pipes on it .mercy mercy

So, we've been doing a little mechanical work (mostly spilling oil and grease in the garage) and some of the "niceties" a teen-aged boy just has to have in his pickup

Ron Ferguson at the Tri-State muffler shop put on the side pipes running separate pipes to the manifolds It has a good sound

Mr and Mrs Don Mason gave No 1 son strips of carpeting left over from their home carpet job and we just about put Ron Frederick at Aneco out of the glue business

The cab ceiling now has a golden brown shag covering and the floor has a deep pile shag carpeting of pastel colors The same carpeting was used behind the seat

Gary White of G & L Conoco fixed the truck up with four used 70's with straight tread and mounted them on chromies.

Aside for a few adjustments here and there, the rest of the job is masking and painting

So, when it's all done (he's hoping for Arbor Day weekend). all he needs is money for gas .and gas .and gas .and gas.

The reason we are such experts in the car jobs as because we went to the auto show in Omaha (with a carload of boys) and came home drooling

+++++

The retirement dinner party

If two of Nebraska City's retirees thought they were going to take down their shingles and disappear in the crowd, they got the surprise of their lives the other night

Dr F C Reese and Dr D D Stonecypher were the honorees at the retirement dinner party Actually, they were the targets of much humor fired at them by their many friends over the years

There were also a number of serious moments when friends pointed out that the two men are missed

We join the Nebraska City community in wishing them the best in their retirement and good health to them

Duff Memorial Home News

By MRS CLAUDE OLIVER

Ten seniors from public and parochial high schools in Nebraska's First Congressional District spent the week of April 4-11, 1976 as interns in the office of Representative Charles Thone. Shown standing on the steps of the U.S. Capital are Merrily Dunn, South Sioux City Community High School, Diane Robinson, Norfolk Senior High School, Patrice Tubbs, Beatrice Senior High School; Lori Lesh, Wayne High School; Vicky Holscher, Nemaha Valley High School; Mrs Sharon Stephan, Lincoln, a chaperone, and Thone. Seated in front are Mike Sanchez, Lincoln Northeast High School, Jim Vitek, Lincoln East High School, Bill Nelson, North Bend Central High School, David Krenk, David City Aquinas High School, and Steven Carrigan, Exeter High School Nebraska educators selected the interns on the basis of grades, extracurricular activities and demonstrated interest in government. Nebraska associations and businesses provided funds for their week's trip to the District of Columbia

Early detection of breast cancer best

How can the victims of the foremost cancer killer of American women — breast tumors — have an excellent chance of survival?

"When breast cancer is detected and treated early, the five-year survival rate is 84 per cent," said Mrs Carl Fielder, president of the American Cancer Society in Otoe county.

If it is allowed to spread, however, the survival drops to 56 per cent

Crusade volunteers will be knocking on doors in Otoe County in April and along with 40 million other volunteers all over the country, they will be distributing leaflets that tell how women can help guard themselves against breast cancer Through a series of pertinent questions and answers, the leaflet dispels myths and stresses the importance of regular checkups and monthly breast self-examination

"The battle against breast cancer has been accelerated because of the 89,000 new cases that are diagnosed each year and the more than 33,000 women who die of it annually," Mrs Fielder said.

Cancer experts have found no evidence, according the leaflet, that an injury to the breasts causes cancer, and they stress that most breast lumps are not cancer.

The leaflet also mentions other possible indications of breast cancer such as skin puckering and nipple discharge. Most importantly, it emphasizes the importance of regular breast exams and prompt treatment if trouble is spotted.

AVOCA

Mrs Henry Maseman

Bernard Straub, Wilmington, Del visited his parents, Mr and Mrs Paul Straub for several days recently Mrs Straub and son stopped off in Ohio to visit her parents

Mrs John Emshoff was hostess for the Goldenrod Garden Club Monday Mrs Elmer Hallstrom gave the lesson on Sweet Pea, the flower of the month

Kits are in Otoe county

Gift of Life Campaign kits are now arriving in Otoe County, announced Robert Williamson, campaign chairperson

The Kidney Foundation of Nebraska is conducting this campaign in an effort to distribute 4,000 donor cards and to raise funds to conduct the fight against kidney disease

Each Gift of Life kit received by rural Otoe County residents contains organ donor cards The donor cards, when signed, indicates the person's willingness to donate his kidneys for transplantation after death

Ted Dillow, executive director of the Kidney Foundation of Nebraska, said, "This effort to distribute donor cards can mean the restoration of health to between 75 and 100 Nebraskans needing a kidney transplant. There is a serious shortage of available kidneys for transplantation, hopefully this campaign will encourage Nebraskans to sign and carry organ donor cards with them "

Gift of Life kits will be passed from house to house, and all contributions collected in the kits will be returned to the Otoe County National Bank in Nebraska City

Neighborhood club

"Easter Around the World" was the article read by Mrs William Schreiter, reading leader at the April meeting of the Neighborhood Extension club held at the home of Mrs Jerome Ullsperger.

Reports were given on bake and take days held in March.

The Otoe County Extension Clubs Spring Tea will be April 29, at 1 p.m. at the Fair Center at Syracuse.

Dues were collected to help sponsor a 4-H member to 4-H club week.

The club members plan to participate in the Community Hospital Bazaar in October for St. Mary's hospital in Nebraska City.

Mrs Francis Ullsperger and Mrs Schreiter presented the lesson on "Simple Car Repairs."

And Save You Will on Our BIG STOCK SELL Off At LIMA'S

805 Central Nebr. City Ph. 873-6173

LET'S TALK ABOUT THE FACTS:

Ervin M. Rogers

It's A Matter Of Record!

I served Nebraska City as mayor, finance and street commissioner from 1958-1968 I have worked honestly, and diligently with the people in the community I live here, too, and share the same things you do.

Then, five years later many of you approached me when we had some troubled times I was elected and have served you with the same sincerity the past two years.

Now, I'm asking for your help. Vote for me for mayor of Nebraska City Let's continue to keep our community moving in the right direction.

THE FACTS:

[These are some of the progressive movements made during my years as a city official]

The Fourth Corso viaduct completed, new bridge on North Sixth Street, and North First Street, 3 new supermarkets, new Woolworth store, new addition to St. Mary's hospital, Wyuka cemetery expansion, revamped and enlarged ball diamonds at Steinhart Park, poles and lights on ball field, paved Memorial Building parking lot, installed traffic lights at 11th Street and 4th Corso, school traffic lights at 11th Street and 2nd Avenue, signed an agreement with Bureau of Reclamation to buy electric power, new Senior High and Northside schools, Riverview Terrace, Nebraska City Manor, built a sewage treatment plant and dug more fresh water wells, Belair and Broadview Terrace additions opened for new housing.

On the city level, the first snow blower and sander were purchased Other equipment were chain saws, air compressors, jack hammers, brush chipper, street sweeper, new motor grader and it was all paid for WITHOUT federal tax money and NO INCREASE in the city tax levy

THERE'S MORE — 101 building permits last year totaling $1,754,330 [that is the most in dollars and cents since 1969, paving district construction $123,341, paid $129,940 for a new fire truck, part of it was paid with revenue sharing funds, Steinhart park paving, tennis courts, a public restroom on Central Avenue, asked for highway safety funds for replacing the downtown street traffic lights, new businesses opened in the past year and old buildings reoccupied, 14 ribbon cuttings at these new or remodeled businesses and the future will be brighter with OPPD's power plant now under construction south of town.

I am proud to have had a part in all of these wonderful things for Nebraska City. They all happened during the time you elected me to serve as a city official and city government has a part in everything in the community

It has been a privilege to serve you. I hope that you will see fit to give me the opportunity to serve you again.

VOTE FOR

ERVIN M. ROGERS

[A Full-time Mayor]

for

Mayor of Nebraska City

He's for progress that the taxpayers can afford
